January - June 2019 Course Offerings

Train For Success

FREE

refresher courses to further the learning
process beyond the classroom.
Once you attend a class, you can keep
coming back to that same class for free.
See page 3 for more details.

Viewing
this on a computer, tablet, or
smartphone? CLICK the class dates to
view the class outline!!!

Computer Visions' General Policies

Students may repeat any class (version specific) taken at our facility on a space-available basis. Refresher students must bring the student manual from their original class.

Prior to the class date, the students and/or contact person will receive an email or phone call confirming attendance in the class. Please arrive 15 minutes prior to the start of class. A late arrival disrupts the class flow and interrupts learning.

If you cannot attend a class for which you hold a reservation, please notify Computer Visions.

You will receive a 100% refund if you cancel ten or more business days in advance for application classes and fifteen or more business days for technical classes (e.g. certification classes).

Remember, **this open-enrollment schedule only lists the most popular classes** from Microsoft, Adobe, etc. If there is a particular class you have a need for, please call us for availability. We will do our best to accommodate any and all of your training needs!

VALUE-ADDED COMPUTER TRAINING

Computer Visions works hard to consistently provide quality computer and business training. We consider every aspect of the training experience when we schedule classes. Our goal is to attain complete customer satisfaction while building strong, lasting relationships with our clients.

COMPUTER VISIONS' TECHNIQUES FOR TOTAL CUSTOMER SATISFACTION:

1. **The Learning Process:** Learning in and beyond the classroom is the focus of Computer Visions' training. Effective classroom training provides increased Return on Investment (ROI) when learning continues outside the classroom. **Computer Visions designs its classes to facilitate continued practice, exploration and growth.**

2. **Certified Trainers in Person:** At Computer Visions you will never walk into a classroom to be greeted by a television screen. **You will always have a real-life trainer with you in the classroom when you join us for class!** Computer Visions' trainers are not only technically proficient, but are skilled communicators. They know how to make novice users comfortable with technology and turn advanced users into "power users." Best of all, they truly make learning fun!

3. **Quality Training Materials:** *C*omputer Visions provides each student with a manual developed for instructor-led training. **The course materials are user-friendly and provide easy reference when needed.** Each manual includes documented concepts, hands-on activities and quick tips.

4. **Refresher Classes:** Students can take **FREE refresher courses** to further the "beyond the classroom" learning process with the opportunity to refresh the skills they learned in class.

5. **Help Desk: FREE, unlimited technical support Monday through Friday.** Whether by email (vision@compvisions.com) or phone (518-437-1600), the answer to your technical or general question is right at hand.

6. **Convenient Location:** Corporate Woods (exit 5A off I90) provides **easy access** from the Northway, the Thruway, and I-787. **The best places for lunch are only minutes away.**

7. **Training at YOUR Location:** **Computer Visions can provide its excellent training at your location.** Effective classroom learning in familiar surroundings!

8. **Class Size:** We ensure training integrity with small class sizes. **No gimmicks can replace personal interactions to facilitate the learning process.**

9. **Price Matching: We will price match competitors' pricing for a private class.** Contact us to get the best pricing possible for your training needs!

10. **Training Guarantee:** When all is said and done, **Computer Visions guarantees customer satisfaction!**

COMPUTER VISIONS

CUSTOM TRAINING
OPTIONS

On-Site Training: Computer Visions will supply an expert trainer with years of training and consulting experience to your facility to train your employees.

Custom Classes: If a class that we offer doesn't exactly fit your needs, let us customize it for your company. Whether you need an application class trimmed to a half day class, or an intensive application class that covers multiple levels in one day, we can provide the customization.

Private Classes: With a class minimum of 4 students we can arrange any training course from basic application classes to advanced networking classes.

One-on-One: Need a little extra attention on a specific application or project? A Computer Visions expert consultant will customize any of our course offerings to provide you with one-on-one training/coaching.

Remote Learning: Computer Visions launched a unique approach, leveraging key technologies to provide the full classroom experience to any remote location. Our remote instructor-led training is delivered in the standard training. format of 8:30am-4:30pm.

ATTENTION:
GOVERNMENT AGENCIES & CONTRACTORS

COMPUTER VISIONS is a NYS certified woman owned business enterprise (WBE).

Why is that important?
BECAUSE IT SAVES YOU TIME!
You won't be subject to the State's competitive bidding requirements for procurements under $200,000. The Issuing Entity may "buy direct" from a back-drop contractor if the contractor is identified as a New York State WBE.

The New York State Comptroller is committed to advancing minority- and women-owned businesses by:
• promoting State contracting, subcontracting and purchasing opportunities to MWBEs
• providing the resources MWBEs need to pursue State business opportunities
• requiring their office contract with qualified MWBEs whenever possible

MICROSOFT OFFICE CERTIFICATION TRAINING PACKAGES

In today's fast paced world, learning how to use computers is a necessity. Computer Visions would like to help you get on the path to success.

First, ask yourself:

• Do you want to ensure that your computer skills meet the current demands of companies?
• Do you use Microsoft Office or Microsoft Project on a regular basis?
• Do your employees include administrative assistants, help desk staff, trainers or Microsoft Office "power users" in any department?

To help prepare you or your employees for the skills required to pass the MOS exams, Computer Visions is offering the following MOS Certification Training Packages:

Microsoft Specialist Certification Training Package
Choose up to 5 of the following classes:

Word-Level 1 | Excel-Level 1 | Access-Level 1 | PowerPoint-Level 1
Word-Level 2 | Excel-Level 2 | Access-Level 2 | PowerPoint-Level 2
Word-Level 3 | Excel-Level 3 | Access-Level 3 | Intro to Windows
Total Value $995 – Special Offer: $795

Microsoft Master Certification Training Package
Choose up to 15 of the following classes:

Word-Level 1 | Excel-Level 1 | Access-Level 1 | PowerPoint-Level 1
Word-Level 2 | Excel-Level 2 | Access-Level 2 | PowerPoint-Level 2
Word-Level 3 | Excel-Level 3 | Access-Level 3 | Intro to Windows
Outlook-Level 1 | Project-Level 1 | Outlook-Level 2 | Project-Level 2
Total Value $2,985 – Special Offer: $1,995

STRATEGIC BUSINESS TRAINING

Are you interested in taking your business to the next level? Ever thought of how improving your employees' business, interpersonal, and goal setting skills could strengthen your team? Explore a wide range of strategic business training courses at Computer Visions in order to develop the skills you need to take you and your company to new heights.

Classes such as:

Google AdWords for Businesses

You will create an AdWords account, run an ad campaign, and track the performance of ads. This course is for small business owners, members of marketing departments, those seeking a career change wishing to become Google AdWords professionals, and web designers seeking to offer AdWords as an additional service to clients.

Business Writing

This course teaches students how to write in a business environment. After a review of basic writing skills, students will learn how to write business letters and reports, as well as several types of proposals.

Effective Presentations

This course teaches students about creating effective presentations. Students learn how to determine realistic presentation objectives, analyze the audience, use supporting materials effectively, organize a presentation clearly, and successfully incorporate visual aids. Course activities also cover reducing the fear of speaking, remaining calm, appearing relaxed, and improving the delivery of your presentation.

Building a Brand on Social Media

Your brand speaks for your company and its products and/or services. In today's online-focused world, it's important that your brand has a definitive, consistent, and responsive presence. Whether you're looking to build a brand from scratch, or strengthen an existing brand, this course will help you build a brand using social media. We'll cover how to build a social media strategy, identify social media platforms that fit your brand, craft strong messages that will engage your audience, and evaluate and revise your strategy.

And also...

- Email Etiquette
- Employee Performance
- Financial Management
- Managing Customer Service
- Appraising Performance
- Fundamentals of Selling
- Negotiating
- Managing Performance
- Fundamentals of Communication

...and many more!

COMPUTER VISIONS CONSULTING SERVICES:
NETWORK CONSULTING

Our network consulting services encompass all your networking needs, from a complete network design & installation to troubleshooting, maintenance and upgrades to general consulting. Computer Visions provides support for Microsoft, VMware, Linux, and Proprietary Systems.

Our methodology is simple: we analyze your environment and your objectives, suggest the equipment and software you need, provide you with a competitive quote, and then install and configure it. Our process provides you with a turnkey business solution.

• Knowledgeable technicians with years of on-site, hands-on experience
• Support for all popular platforms
• Provide critical network security

We offer networks customized to your specifications using quality components. We can support your current network, maintain its integrity, and also provide upgrade support as the needs arise.

With hands-on experience our staff can troubleshoot your current system and resolve issues that might be limiting peak performance or creating security risks.

Services available:
• Consulting and Research Services
• Forensic discovery and recovery
• Professional LAN Wiring and LAN jack installation
• Setup of Small Office Networks
• Web Server setup on all Windows Server (IIS)
• Windows Server setup and configuration
• Enterprise LAN/WAN router installation & configuration
• SOHO internet gateway router installation and configuration
• Backup system hardware and software installation
• Backup software installation and configuration
• Group workstation setup to work in LAN/WAN configuration in new offices
• Desktop support for all Windows operating systems
• Firewall installation and setup
• Internal/external e-mail system setup
• General network services, computer services, & computer consulting
• Microsoft HyperV
• VMware

COMPTIA CYBERSECURITY TRAINING

To stand out in the cybersecurity industry, it's not enough that you have the skills; it's equally important that you have certifications to back it up. They're essentially your proof and badge of honor that signify that you really know your stuff. Computer Visions' can provide you with the training you need to crush today's most vital IT security certification exams: CompTIA Cybersecurity Analyst (CYSA+), CompTIA Advanced Security Practitioner (CASP),CompTIA PenTest+ and CompTIA Security+.

CompTIA Cybersecurity Analyst (CYSA+)
5 days: Feb. 11-15, Mar. 25-29, Apr. 29-May 3

This course introduces the tools and tactics to manage cybersecurity risks; identify various types of common threats; evaluate the organization's security; collect and analyze cybersecurity intelligence; and handle incidents as they occur. Preparation for the CSO-001 exam.

CompTIA Advanced Security Practitioner (CASP) 5 days: Feb. 25-Mar. 1, Apr. 8-12, May 13-17

In this course students will expand on their knowledge of information security to apply more advanced principles that will keep their organizations safe from the many ways technology can be a threat. Preparation for the CAS-002 exam.

CompTIA PenTest+
5 days: Jan. 28-Feb. 1, Mar. 4-8, June 3-7

This course teaches the most up-to-date penetration testing, and vulnerability assessment and management skills necessary to determine the resiliency of the network against attacks. Students will learn the skills to customize assessment frameworks to effectively collaborate and report findings, and communicate recommended strategies to improve the overall state of IT security. Preparation for the PenTest+ exam.

CompTIA Security+
5 days: Jan.14-18, Mar. 11-15, June 10-14

In this course students will implement, monitor and troubleshoot infrastructure, application, information and operational security. Preparation for the Security+ exam.

For more information about CompTIA Cybersecurity Training - please contact us at (518) 437-1600.

PROJECT MANAGEMENT TRAINING

Approximately 31% of IT projects are cancelled before completion
Approximately 84% of all IT projects have cost overruns of at least 20%
Approximately 86% of all IT projects have time overruns of at least 20%

Do these dismal statistics sound familiar?
Do you want to do something about it?

If so, invest in world-class Project Management training at Computer Visions!

Classes are forming now for courses in IT Project Management; Building Project Teams; Project Planning, Scheduling and Control; Project Communications: Infrastructure and Protocol; and Project Risk Assessment and Management.

Call Computer Visions at (518) 437-1600 for more information, or to register.

WHY BECOME CERTIFIED?

Get hired and be productive, faster

Certifications fuel new and valuable careers. Microsoft and CompTIA Certified Professionals spend less time interviewing and more time driving value. Adding a Microsoft or CompTIA certification to your resume helps you stand out and get hired—faster. In some cases, certification has allowed hiring managers to fill positions 25% more quickly. What's more, certified new hires are fully productive an entire month sooner than their uncertified peers. This level of productivity makes your impact and skills clearly stand out.

Make noticeable business impact

Take your career to the next level. Microsoft and CompTIA Certified Professionals make immediate impact, helping you get noticed and move forward quickly in your career. Compared to their peers, Microsoft certified developers are 90% more productive and nearly 60% more efficient. This means that they make nearly twice as many applications per year and in half the time per application.

Get promoted

If it's true that time is money, then earning a Microsoft and CompTIA Certified is certainly worth the time. On average, Microsoft certified technologists earn 15% more than their uncertified peers. What's more, certified employees are often entrusted with supervising their peers—putting you on the fast track for a promotion. Certified technologists advance their careers quickly, becoming qualified leaders on their teams and in their businesses.

If you are interested in becoming Microsoft or CompTIA Certified, please call 518-437-1600 for more information.

Computer Visions' has more than 22 years of experience preparing students to pass the certification exams and being able to successfully at implement Microsoft and other technologies in business environments.

Plus, you can find out what our staff members have been up to and how we have been supporting our community in appreciation of the support you give to us!

CompTIA

Computer Visions offers CompTIA certification courses. CompTIA, a vendor-neutral organization, represents more than 8,000 computing and communications companies that outline standards in certification, e-commerce, customer service and workforce development to meet industry wide challenges.

CompTIA Certification Options
Class times are from 8:30AM to 4:30PM

A+ Certification (900 Exam Series) focuses on the skills required for entry-level PC technicians. Students learn how to install, configure, upgrade and repair PC's. The courses include instruction in computer architecture, memory, modems, printers, hard disk setup and operating system optimization. **Cost: $2,795**

Jan	Mar	May
7-11	4-7	20-24

Network+ Certification (N10-006 Exam) course includes instruction in network operating system basics, network topologies and strategies, the OSI Model, data transmission, network, transport and session layers, TCP/IP fundamentals, IP addressing, network security and network installation, maintenance and troubleshooting. **Cost: $2,795**

Jan	Apr	June
21-25	15-19	24-28

Server+ Certification focuses on server hardware technologies, including how to install, configure, and upgrade server hardware; preventive maintenance, troubleshooting, and disaster-recovery techniques for servers. **Cost: $2,795**

Feb	Apr	June
4-8	22-26	17-21

Project+ Certification is an industry-recognized credential acknowledging competency and professionalism in Project Management; including the necessary business knowledge, interpersonal skills, and project management processes required to successfully manage projects. **Cost: $2,795**

Jan	Mar	May
21-25	11-15	13-17

IT Fundamentals is designed to help you learn more about the world of information technology (IT). It's ideal if you're considering a career in IT or if you work in an allied field that requires a broad understanding of IT. **Cost: $1,690**

Jan	Mar	June
9-11	18-20	25-27

Security+ Certification is targeted at professionals with at least two years of networking experience and knowledge of TCP/IP. Focusing on general security concepts, communications security, infrastructure security, basics of cryptography and operational/organizational security. **Cost: $2,795**

Jan	Mar	June
14-18	11-15	10-14

Cybersecurity Analyst (CYSA+) introduces the tools and tactics to manage cybersecurity risks; identify various types of commone threats; evaluate the organization's security; collect and analyze cybersecurity intelligence; and handle incidents as they occur. **Cost: $2,795**

Feb	Mar	Apr/May
11-15	25-29	29-3

Advanced Security Practitioner (CASP) builds on your existing knowledge and experience of information security to apply more advanced principles that will keep their organization safe from the many technology threats. **Cost: $2,795**

Feb/Mar	Apr	May
25-1	8-12	13-17

Cloud Essentials Certification focuses on the real-world issues and practical solutions of cloud computing in business and IT. It's the preferred cloud certification for business professionals. **Cost: $1,690**

Jan	Mar	June
2-4	18-20	25-27
