Course Description

This training course will give students a solid foundation in Captivate, Flash and the other eLearning Suite tools. After completing the week-long eLearning course, students will have the knowledge and hands-on practice they need to create sophisticated eLearning content.

The goal is to provide a solid foundation in the key content development applications - Captivate and Flash - while providing critical workflow examples using Photoshop, Acrobat, Dreamweaver, SoundBooth and Presenter.

Course Outline

Day One - Captivate

Learn the foundations of Captivate with a focus on Captivate workflow and soft skill training.

- Lesson 1: Captivate 4 Workflow Essentials
- Lesson 2: Captivate 4 Overview
- Lesson 3: Templates
- Lesson 4: Soft Skill Training - Adding Assets
- Lesson 5: Soft Skill Training - Interactivity

Day Two - Captivate

The Captivate training continues with an overview of creating simulations and scenario based training. Quiz questions and publishing are also covered.
